

## Software & AI, explained clearly and delivered cleanly.

We help companies without IT experience from idea to running operation. Clear, transparent, step by step.

One point of contact

Clear plan

Fast first results

### Clear & structured

Regular updates, clear decisions, and a roadmap you can follow.

### How it works

1. Get to know you: we learn your goals and audience.
2. Gather ideas: turn wishes into clear tasks.
3. Create a plan: make effort, time, costs understandable.
4. Deliver: small steps with regular updates.
5. Support: we explain everything and stay available.

### You get

- A. Clear communication without jargon.
- B. A project plan with clear milestones.
- C. Security and privacy included.
- D. All results are yours and stay extensible.

### 1-day workshop

1. Define goals and success metrics together.
2. Current state: review systems, data, interfaces.
3. Collect ideas and value, choose an MVP.
4. Prioritize by effort and value.
5. Define roadmap and next steps.

### We'll guide you.

From the first idea to the finished solution with a plan.  
Thank you for your trust.
